Report to Council

Personal

Listserv - I sent out info about the Advanced Room Bookings, Office/Locker applications, and the Club Feedback Forum.

Handbook - We will definitely be doing some kind of mobile handbook, just not sure which company we will be working with yet.

Building

Lighting Cafeteria project - This project is currently at status quo. I can provide an oral update if necessary.

Bulletin Boards in Shatner - We are going through a trial period with the current signage on the bulletin boards. Let me know if you have any suggestions.

Lockers - Applications are up, along with those for Offices. This is a project that never really got finished this year but I think could be done better next year. Basically there are a lot of empty lockers but things are not entirely well.

Green Corner - Status quo.

Midnight Kitchen Fridge - Ordered parts from Toronto. Fridge still broken for now.

Committees

Gardens & Grounds Committee - members of this committee soon to look at various signage across campus and how to improve it. I addressed bikes with this committee already; let me know if there are any other pressing concerns your constituents have raised.

Committee on Student Services - There was an interesting presentation on Chaplaincy Services at the last meeting, as well as a discussion of next year's budget. Apparently, the MUNACA strike money was not taken back by the government, so instead it will be used to cover the deficit in the budget this year.

Interest Group Committee - Since the Policy passed last semester, we have a group of members currently conducting service reviews.

Funding Committee, Equity Committee - These two committees are going well, no major topics to report.

Operations Management - We are currently conducting service reviews.
