

## **Report of the Vice President Internal to Council** **February 4<sup>th</sup> 2010**

### For Information

#### Events

This went very well. I think the event was a success and it was something different and interesting in my portfolio. There was a great turnout and I think people enjoyed it. I hope some of you got to come check it out.

I am putting this together with the Green events coordinator and one of the environmental commissioners. This is going to be really cool. It is an interactive workshop on making events more sustainable. Its going to be held on February 11th, 5:30-7:00 in the Clubs Lounge (on the 4th floor of Shatner). Please
