There are no further questions.

Debate Period:

There is no debate.

Director Wan motions to vote by unanimous consent, seconded by Director Paulin. There is no opposition.

The motion is approved unanimously.

- c. Motion Regarding the Dissolving of the Building and Operations Management Committee (BOMCOM) 2021-11-04 -- **APPROVED**

Director Paulin presents the motion and explains that she has been in communication with the Building Director. She notes that the Building and Operations Management Committee (BOMCOM) has not been updated for a few years and the committee has not been doing the work it is responsible for, which has caused an increase in workload for the Building Services department. The Building Director has ~~no~~ ^{limited} connections and resources when finding tenants for the University Centre (UC) and the committee has had trouble with scheduling meetings. One of the concerns with dissolving the BOMCOM is that there will be less student representation, but it does not seem that the committee was operating with student input. It would also streamline the process of finding tenants for the UC and the individuals who have been consulted on this motion, agree with these comments.

Question Period:

Question:

Director Wan notes that many committees of the Legislative Council have not been meeting or presenting reports and have been inactive within the SSMU, and inquires if this will set a precedent for dissolving inactive committees.

Answer:

Director Paulin responds that it will not set a precedent for the committees, but this is a logistical process, and student input is not as necessary for this committee, as it would be for other committees at SSMU. She notes that she will continue on reviewing and reforming different committees within the SSMU to make them more functional^{prec}
